Priced at just \$6.99, the DLC includes 3 essential works to fully enjoy A Rite from the Stars and the universe around it.

- **A Rite from the Stars Artbook:** Tracing the evolution the game’s beautiful art and design, this 30-page book includes art from the team’s 2D and 3D artists, ranging from concepts to backgrounds to 3D renders, and even includes a few lovely pieces submitted by fans!

About A Rite from the Stars

Kirm, a mute boy from the Makoa tribe, has been chosen by the Stars to undertake a mystical rite of passage to become a legend among his people. To achieve this, players can freely explore the Mystical Island of Kaikala and pursue the three paths of Wisdom, Courage, and Spirit in any order they choose. Each path offers a new style of puzzles and obstacles to overcome, from solving riddles to manipulating ancient machinery to tag-team coconut dodgeball! Not to mention Kirm's playable meerkat companion Mirk and guiding star Hoku, who are on hand to collaborate on puzzle solutions and lend insight along the way.

Inspired by classics like *Machinarium* and the *Legend of Zelda* series, *A Rite from the Stars* features vibrant 3D environments and a fully orchestrated soundtrack recorded with a live chorus. It's voiced in the Makoan, the original language developed especially for the game, with subtitles in English, French, Italian, German, and Spanish. Learn more at the [Phoenix Online website](#).
